

The Valley Bowmen of Huddersfield

Frostbite Shoot – 31st December 2017

A balmy temperature of 7 to 8 degrees with dry and sunny conditions were a far cry from the descriptive title of the annual end of year Frostbite Shoot. Once again we were very happy to welcome a large contingent of participants including a guest shooter to take on the demands of an outdoor winter shoot. Most targets were set up at the 30m mark for the Frostbite Shoot but we also had some juniors shooting at the 20m mark. The Frostbite round comprises just 3 dozen arrows to be shot in 3 arrow ends, this is to allow for the cold freezing conditions, and perhaps the festive overindulgences.

As there were no awards, other than the joy of participating, I have taken the opportunity to expand the results.
