

The Valley Bowmen of Huddersfield The Traditional Shoot Competition – Sunday 8th October 2017

Well, well another beautiful, fine and pleasant morning welcomed us all for the Valley Bowmen Traditional Shoot on Sunday the 8th October 2017.

The Traditional Shoot is an open event where every club member, young and old and using any bow style can take part. The event requires that no sights of any kind are used and also only wooden arrows can be shot. Spare wooden arrows were available for any archer wanting to take part that did not possess wooden arrows. Unfortunately no one took up the offer and we were down to five participants from the heady heights of last year.

The round for the day was a Western Round, 4 dozen arrows at both distances.

The long bow was the favoured bow style of the day and one of the long bows was a self-bow without horn knocks shooting traditional style arrows.
