

The Valley Bowmen of Huddersfield Outdoor Handicap Club Championships 2021 – 13th to the 19th September

The conditions were incredible for the Outdoor Handicap Club Championships shoot on Sunday the 19th September 2021, it was sunny, very bright with the sun low over the trees, very warm and certainly not as expected.

The WA1440 round is traditionally shot for the handicap championships, consisting of 12 dozen arrows. There were only 5 members who turned out to physically shoot on Sunday, however, we had 12 members in total who put forward a score to be included during the week leading up to the 19th Sept.

If a member has recorded at least three validated rounds they will have a handicap. It does not matter what bow style you shoot or what your ability is, the handicap system gives everyone an equal chance of coming on top at the end of the day.

Well done to Chris Tansey in becoming this years winner. The trophy will catch up with you in due course.
