

Outdoor Handicap Club Championships

Sunday 18th September 2022

A total of 16 competitors took to the field for the annual Handicap Competition in dry but breezy conditions. Six archers competed for the trophy by shooting a WA1440 round and the remaining 10 archers battled it out for medals in the Handicap class (yes, I know it's confusing) by shooting a Metric round of their choice.

Anyone who has previously submitted 3 validated scoring rounds is awarded a handicap allowance. Each archer has their "allowance" added to the score they achieve on the day to give the final competition result. The theory being that if every archer shoots at the level of their handicap on the day, everyone will have a final score of exactly 1,440 (after adding their allowance).

The results for the day were as follows.

Apologies to Russell, but in keeping with last years competition and the Outdoor Championships this year, we failed to have the Trophy available to present to the winner. Apologies also go to Mollie Bower who should have received the third-place medal (incorrectly awarded to Alan Hoddinott on the day!)

At the end of the competition a final 3 arrows were shot at 30m by all archers for the Worst White trophy, won this year by Alan Hoddinott

Our thanks go to John Pawson for preparing and cooking the BBQ at the mid-round break after the first 6 dozen arrows.

Well done to everyone that entered
